What Government is God Against?

Who is God against? What kind of government more than any other is He against? God will oppose any government that usurps man's free will — any government that keeps you from following your heart. God will oppose the government that promises “the Kingdom” in this age. Communism “gives” people everything in return for total control of their lives. The ultimate goal of communism is control of the whole world. We have the ultimate incentive to carry us to the end if we have the revelation of the Kingdom and the help of the Holy Spirit. If we have these things we won't fail.

God has a special blessing for each society that allows man to work and decide what they will do with the fruit of their labors. This is free enterprise. This kind of society allows a man to give up everything for the sake of the Kingdom. Other societies wouldn't and don't. This is a really significant point. God loves that freedom to do good (Acts 17:26,27). God is against the government that doesn't allow this. Eze 38 — From ancient times the utter north in verse 15 has been recognized as Moscow and Russia. In verses 1-3, He said He is against Gog, not America.

(We will never establish a community in a Communist nation or under any government that wants to bring children under their anointing. We would lock horns right away — and they would just shoot you.) Gen 10 traces the descendents of Noah to where they settled in the world. Josephus wrote that Magog was Russia, the land of Rosh. Rosh was the Scythian prince of Rosh. (The United Nations is controlled by the whims of communism.) We want to hate what God hates (Eze 38:1-3). God is against that form of government that stifles people, where men are not able to choose between good and evil. In America we can do all things as long as we don't violate someone else's rights.

(Gorbachov in Russia is making no root change. Most people are blind to their roots. The roots of the Boston Church of Christ are division — that is their only possible fruit.)

Eze 39 — This is not the time of the very end. It doesn't seem as though we'll be burying the dead for seven months in the next age (verse 12).

There is no place on earth that is actually a functioning communist society now. Rather the process to achieve communism is happening. See the October 11, 1988, teaching, Communism.

The time will come when we will need to be able to live without buying or selling or utilizing services.

When the world system comes against us with force, then the Male Child will be sent out. Then we'll flee. See the June 11, 1989, teaching, The Three Angels of Revelation 14.

Whatever nation we are in, we are going to teach our children enough about its history and the history of Israel, that they could carry on a conversation with someone for the sake of the gospel.)

Anarchy is a philosophy that equates government and oppression. Statism, on the other hand, is centralized government with all power in the hands of the central government. But a government in a capitalistic society is not free to seize everything. Anything that comes against individual rights comes from unholy angels.

A mixed economy has two sources: both capitalism and communism. Anyone who advocates a mixed economy that promotes taking away people's rights is going to the Lake of Fire.

(The schooling in this country ought to be competitive. Everywhere we go, on all kinds of issues, people are listening to holy or unholy angels. We are not going to take what we know and go out and protest. We're going to pray. We are learning about government in order to stand for what is right.)

Kharash: The effective power of communism lies in seeing the faults of those they are opposed to. They look for situations they can look good in, like South Africa. Centralized government allows everyone to be wired in. Finally, your beliefs and convictions don't matter. All that matters is meeting your needs of food,

clothing and shelter. Doing so, they suppress the truth in unrighteousness. Any fault then lies in the system of things, not your sin.

Yonah: Progressive Modern Education reduces the blood, sweat and tears, the passion of those who laid their lives down to mere facts and figures. Our teachers in the Educational System were brooded over. Everything our Father is telling us has to do with capturing the hearts and minds of our children.

Prophecy brings you to the long-range goal.

Shorash: Some of the people I know who are the most devoted to the Constitution have children who hate what they are doing. We must lift up our hands and pray for those in government. They don't even know what they are doing.

Edah: Proverbs 21:1 gave me faith to pray for governments.

Maurice: The government we're in is good. It will even help our children know who's good for them.

Hakam: Everything the Communist system attacks is what allows people enough peace to hear their conscience. The evil one is bringing in a system that would silence the human voice, a benevolent one that would meet your needs.

Without peace in our families, having our children's hearts, then what needs to be awakened cannot be. If our Father can speak to us in our conscience, then we can be saved.

People in government have to hear our voice enough so that what's in them can be awakened.

Yoneq: There is an endorsement of a capitalistic system in the New Testament because there you can dispose of your income.

Zadok: Socialism gives you everything at the price of your soul. You're allowed to do what they allow you to do.

There's something in me to create. That's good. The world needs to see capitalism work without destroying the world.

Kharash: We're not talking about an elite. We're talking about those who have a better way, who work by the sweat of their brows.

Everyone in the household ought to know where the money goes especially the tithe or gifts. Liberals legislate you will be your brother's keeper — that is the evil; it takes the responsibility off the individual. Conservatives understand that without work there's no food. Why these labels? Altruism is a form of government that takes away initiative.

Yonah: The conservatives are not telling people how to live. The liberals violate the human will. They can do nothing but bring in the Antichrist system, believing in the perfecting of man apart from the Holy Spirit.

The greatest demonstration is that people would give to one another because they love one another. This is the witness, of those who freely give to one another, without compulsion.

Yoneq: We will not centralize.

Adam: The evil of asking for a king is saying, You do it for me, you keep a good conscience, you tell me to love my brother.

Anyone who destroys the Temple will be destroyed. If we don't exercise our voice, we'll be destroyed. We are taught to obey the gospels and epistles in a society where we are able to give up our possessions. The Bible supports this capitalistic society.
