

## **Tribes**

**We can't be in two tribes at once. In the eternal day, we will only be in one tribe. The soul is different in each tribe. Each tribe has a different flavor; each reveals different facets of His personality. Twelve speaks of rulership. Rev 21 — Twelve tribes will rule the universe. We are learning to rule, to be united. As long as the glory of Yahshua is upon us, we will not divide.**

**Another word for Christianity is Ichabod (the glory has departed). Their light has been taken away. Rev 2 — the glory departed from the first church. Their love waned until there was no light or love, then Christianity took over.**

**Our Father is once again raising up the twelve tribes. We are part of this family of twelve tribes. If the men flourish, then their women will. If they are in the right soil, we will gain their stability. The wife will follow her husband.**
