

The Same Glory

We are worse than a brother who is in darkness if we don't help him, because we are supposed to be walking in the light, and here is a brother who needs help and we don't even help him.

You never really hear the people who spoke last night. The power of the Holy Spirit came upon them. They couldn't have done it otherwise. He doesn't come on unclean things. You are clean. Our youth have potential now. Like Haggai spoke last night. He doesn't think he can do it. But he can. We have to pray for him. His daughter spoke. We can do all things we are supposed to do through Messiah. Not all things, but all things we are supposed to do. Otherwise Paul and our Abba would be a tyrant. You have to encourage our youth now. They can do it. They need to grab hold of things and speak about it in the minchah. They can do all things through Messiah who strengthens us. We are our brother's keeper. We protect each other. N. is radiant today. He has a clean conscience. He is totally different. It wasn't a mistake that you are here. Our Father brought your mother in just for you. You are going to be a ruler of the universe someday.

2 Ths 2:14 — Our Gospel

He called us that we would attain to the very glory of our Master Yahshua. Whatever glory the Creator of the universe has, He has chosen us to attain to the same glory in the eternal ages, not to any secondary glory.

Rom 8:16-17 — We have His very same value and worth eternally in the eyes of our Abba. That's what He chose you for, the very same thing.

N. was on the way to staining his garment. Our Master just would have said, "Depart from Me; you are not worthy to rule in My kingdom."

Eventually he would have committed a sin unto death. Keep a good conscience. Walk in the works you are supposed to walk in right now. When you are an adult our Father will put you in the place you are supposed to be.

Stay in fellowship now; talk to your imma; talk to your leaders.
