

The Rod

We looked up the word rod in the dictionary today. It said a “reed-like stick used to spank a child.” It is probably an older version dictionary. If you are not disciplined by the rod you are going to grow up unruly, wild, like an animal of some type. But we are human beings. We have an abba and an imma who discipline us.

Caleb David — You children are learning these things and it’s important that you learn it. Because children your age in the world are learning totally other things and they don’t even learn the things you are learning. You are the only ones who are learning these things and if you don’t learn them, they will be lost. Just like the law was lost.

Mal 4:4 says, “Remember the law...” It was lost. They had to remember the law in their heart and bring it back to understanding.

Caleb David — Mal 2:7, “because the lips of a priest should preserve knowledge...” That’s what priests should do.

You will see that dew someday, the dew that comes in and waters the mountains of Zion. This is a mountain of Zion. Wherever we are is a mountain of Zion. An apostolic center is like Mount Hermon and the messenger takes the dew to all the little clans around. That’s where eternal life is.
