

## Genetic Engineering(Notes from the Music Meeting)

The gospel has been modified, mutilated, and mutated. The sons of God will come in when they hear the true, unmodified gospel. Gal 1:6 – Everything is music. Our life is a song, a melody, and a harmony. No one can sing the song except those that have heard this gospel and responded. 2 Cor 11:2-4 – This is a different gospel. There is only one true gospel. Every other gospel is distorted and perverted.

Earth Day 2000 in Washington, DC, is expected to be the biggest gathering ever. Everything is being altered and changed, engineered to capture the whole world. Maybe our Father can recapture His people. The melody of our life and what we can sing and play on instruments are one and the same thing.

The gospel has been genetically engineered. It is another gospel (*heteros*, #2087 in the Greek). It is qualitatively different. Many different gospels today call for different responses and you don't know what you buy, whether it is true or not. You don't know whether the vegetable you are buying is genetically altered or the real thing. But the different gospel has a different affect on people's lives.

Gal 1:7 – The genetic engineering that modified the original gospel limited the meaning of it through a “grammatical” construction that changed or altered it qualitatively so as to not have the same effect as in Acts 2 and 4. It became an easy gospel. Under it people can't live in community any longer because community is a torture chamber to the flesh. Only when laying down our lives can the Holy Spirit communicate to us that we have passed out of death and into life (1 Jn 3:14).

Believers can sing that new song. They have the present assurance of their salvation. How many times have we preached a modified gospel, avoiding the so-called *hard sayings*? Then it is distorted from its true meaning.

Since it is no longer in its original form it no longer has its original effect. The true gospel will have the same outcome as the first church did in Acts 2 than 4. (We were doing it in the beginning and didn't know it was “wrong.”)

*Syntax* is the way words are put together to form phrases, clauses, or sentences. The true gospel, which causes Acts 2:42 and 4:32, is inflexible, unyielding, and unalterable. We have to relate *genetic engineering* to the gospel, to how it's been genetically altered. We can do this in the form of a parable.

*Genetic engineering* is manipulation of, or relating to the original, having to do with an organism's development (it's genesis). Mt 24:5 – “Many will say that I am the Messiah and will mislead many.” They will not be proclaiming themselves as the Messiah, but will mislead many with their altered gospel that still says He is the Messiah.

*Engineering* is a science by which the properties of matter and sources of energy are made useful to man in structures, products, and machines. *Modify* means to change, alter, or limit the meaning of. To *modify* the gospel can be to limit the meaning of it, as in a grammatical construction, analogous to *genetically* or *engineered modified food*. It is modified in order to achieve a desired end. We heard about genetic engineering in England. They say it's going to save the world. The genetically engineered and modified gospel will allow billions to come in. It is distorted and perverted from the original gospel. It is just off the mark, the goal.

The gospel has to lead you to Messiah; that is the goal. Laying down your life is the result of the gospel. This happens when you are living in community. A *gospel* that produces any other result has been altered. Community is no less than a torture chamber for people who do not receive the real gospel. It just means they came in over the wall. Paul said the gospel is the power of God unto salvation for all those who believe (Rom 1:16).

Is this an apple? It may look better than apple, but does it give life? It promises much but delivers nothing. To modify is to change, alter, or limit the meaning of. It is to achieve a desired end by artful means. Billy Graham's gospel is a modified one. We will need to have a paper ready for his funeral and for Earth Day 2000. Did Yahshua come to bring peace or to bring a sword? He came to bring a sword, to cause an uproar and to startle.

Paul calls a curse on anyone who distorts the gospel. They do not allow it to become a source of salvation. To genetically modify the gospel softens the blow, dulls the sword – such an adjusted, altered gospel can only

produce modulation of the original message. Mutation, restriction, revision, and reformation all occur as the gospel is reworked, refashioned, and remodeled by Christian armchair theologians.

Satan's servants preach another gospel, masquerading as ministers of righteousness. 2 Cor 2:17 – They peddle the gospel. They get paid for preaching the gospel. They pass the bucket. The chief architect of the Christian Church, the contriver and designer of the Christian gospel, the deviser and director of mutations and mutilations, is Satan. The gospel has been genetically changed, causing divergence from its original type.

Satan is the inventor and manager, the great manipulator, organizer, planner, and schemer to bring about the two billion people who hope to go to heaven when they die. Satan is the great engineer, causing the Inquisitions, the deceptive programs, which all have as their purpose the necessary contrivance to control the church. Rev 18:2 describes the goal of the mastermind, the maneuverer, the originator, the planner of the plot, and the scheme spoken of in Eph 6:10-17.

Our Master said He had the key to death and Hades. *Hades* in Rev 1:18 is the unseen realm. If we love the people of the world like our Father does, we'll unlock them from the unseen realm and set them free. Hopefully, there will be critical mass among us.

Yotham – I saw a science documentary about genetic engineering. It showed both sides but leaned against it. It showed how scientists take part of the DNA that is in the plant or animal kingdom, and put it in something else. They make it seem like it's not hard, that it simple for scientists to take DNA out of a slice of a toad and put it in a tomato. Scientists say it's going to save the world. They'll make things better than our Abba. They will bring about world peace because there will be no more hunger.

The man representing the side opposed to genetic engineering was also educated. He said it is the most frightening thing man has ever come up with. They are tampering with the creation. Monsanto is promoting it to save the world. It is a trillion-dollar thing. They don't know the effect of this on human beings. They won't test; they'll just start doing it. They have already begun. In the United States they don't even need to label genetically altered food. It could cross with other farmer's seeds.

Prince Charles said man was playing with things that only God should engineer. He is a farmer. If you come against genetic engineering, it looks like you are evil and coming against the very thing that will save the world. The only music we've ever heard has been genetically engineered. We have to get back to the original. In our soul the unseen things have always affected us. Our Abba engineered the Body so we can get back to the original.

Yoneq – The evil one wants to make something more beautiful than God does, but all he can do is deceive.

Hakam – Genetic engineering is very big. It involves everything from nonprofit groups to multinationals like Arthur Daniels Midland. The news commentator, David Brinkley, quoted Shimone Perez, the ex-prime minister of Israel, to the effect that, "The solution to world peace is to feed the world." ADM it is using the most sophisticated technology to produce food. We are talking about laboratory needles in food, etc. This whole idea is being marketed to the masses that people would see genetic engineering as a good thing.

Nahaliel – Things are being changed to fit the evil one's purpose. He is trying to fulfill himself and satisfy his own inner workings. Everything is being manipulated to bring about his own self-righteousness. The goal is not for it to be good but to look good. All that matters is how it impresses, how it deceives.

The most striking thing of all is that he has to control everything. He's connecting the inner workings of everyone to his evil spirits. We have to be sensitive to our Abba's Spirit. The unseen realm is something we must be really sensitive to. The gospel cuts us off from responding to what the evil one is doing and responding instead to what's true, to what we know is the truth.

A grand plan is going on, something we must be aware of, and have the keys to unlock. There is an actual conspiracy going on right now. Christianity is one of his tools. It is actually the biggest. It manipulates truth. Once you genetically engineer it, it will propagate – reproduce itself. You add to the gospel and it grows. It is being restructured and it propagates itself in its new form. It can create new forms of life, like locusts with the sting of a scorpion (Rev 9:2-5).

The evil one is making himself preeminent. He wants to keep this rolling so he can go on eternally. We need to know these things so we can expose them.

Kepha Qayam – Monsanto made a chemical to go with these seeds and named it *Roundup*. On one of their first plots of ground, nothing could grow besides the genetically altered seed. The evil one wants to get to our seed. There is another technology called “terminator seeds.” With them you can’t save your own seed because they don’t reproduce.

The perfection of beauty – the true life of God will be from the inside. The evil one brings beauty on the outside. His seed has a terminator gene.

ha-emeq – How terrified must the farmer be who wants to protect the corners of his fields. Such a helpless feeling, knowing the whole world is going that way. We have got the good seed. We’re right in the middle. We have got to stay in the middle and not get mixed in at the edges. We have to be “Shomer” or watchmen. We have to watch out for the bad seed.

At the Vine House, we didn’t have even a guitar and we just sang and sang and sang. We have to be “Shomer” to detect the things that come in. This genetically manipulated seed can’t influence us. The Intentional Community Magazine advertisements talk about nice communities, but we preach Yahshua, who is the good seed, the only good seed.

Amatz – We are talking about the unseen realm – the unseen manipulations. A will, an intention is being expressed. It is deliberate, purposeful – they are going towards a definite goal. The spiritual DNA – what shapes and programs everything else – is motivation.

That is why Yahshua said “If anyone wants to do My will, then I’ll reveal myself to him” (Jn 14:21). The gospel doesn’t deal with appearances, but it deals with motivations. Monsanto doesn’t really want to save the world; they want to make money. Extended shelf life, waterproof, etc. – but does it provide nutrition, does it give life at all? When Yahshua died the veil was rent and it was exposed that there was nothing in the Temple. We can learn to judge ourselves and what’s motivating us. We have to judge the apple – it looks and tastes like an apple, but it won’t do anything for you.

Chord – the wound string. The inner workings are wound – of music, plants, and animals, even the human spirit. If they do have a will to do our Father’s will, then He can save them.

Havah – They can produce a perfect, genetically modified cob of corn. These scientists are saying they are able to make a perfect society. The people who wanted to go back to the land haven’t known how to do it. Our children need to learn to trust us. They need to know that whatever it is that looks good in the world is really bad for them. We need to be trustworthy recipients of the trustworthy gospel to have the whole picture. We need the right chord, which will reach their heart. Our life is the whole picture; everything is so integrated

Nun – We need to be attentive to the perimeters of our field, which is where our crops are. The purpose of the watchman is to be totally focused. When we began, we didn’t have all the accessories. The more we have reasoned, the further away we have gone. The most important thing is the simplicity of our love for Yahshua. We have to know our spiritual DNA. We have to know what we are made of. In order to have a pure seed we have to be tuned in to our DNA. We have to be totally devoted to Him.

Inner workings are very deep. We have to know Him. Fifty years from now it has to be the same, not modified, manipulated, or changed. It has to be this same seed 50 years from now. We can repent. We can return. We have to guard our hearts!

The world is going in one direction. We will be going in another. The preserved seed is total surrender. Our DNA is love for Him. It is that we would just love Him and be in tune to his Spirit. We have to just love Him, just love each other – that’s how it was in the beginning. We don’t need the accessories. We’ve got to open our eyes and cut off our inner workings, or we will become enemies of the cross.

The cross means to cut things off. The gospels say we are to carry our own cross and bring about our own death. This is not something that just happens when we first believe, but it continues all the way through our life until the end. The early Christians had that little symbol of the cross to remind them of what they needed to cut off in their lives.

The evil one has always beguiled the Church. We have to know our DNA in order that we would radiate the glory of our Master, of the New Covenant. The woman clothed with the sun is our goal. There is nothing greater in this life for us to accomplish. It requires something; we can’t be asleep on the wall. We

have to guard one another, be aware of any foreign activity in our midst, anything producing sterility. Aharon – I was thinking about King David. I was thinking how he was a man after a Father's heart. Ps 19:10 – I don't have any hope in me to be on top of it by the age of 90 years. But I saw King David was so good at confessing his sins. Our Father will keep us safe if we are just confessing our sins. He'll keep our hearts pure and safe.

Neshef – The organic fruit and the manipulated fruit can look so much alike. Christianity was all I put my weight on, but it was empty. Our goal is not joy or peace but to know Him, to know the real thing. We want to pursue Him and get to know Him and draw close to Him. We want to draw to the center where the light is the brightest. Our heart is to confess all those things that tangle us up. Law officials study the real money and not the counterfeit. That is how we want to be.

Jeremiah – The evil one just cares about how it looks, not if it is really good. I'm thankful we can be real, confess how we really are. We don't have to polish ourselves up, put on good clothes and go to church on Sunday. I am thankful we can be real and honest and our Father is going to save us.

David ben B'rith – The issue is authority – the true gospel comes from Him, and causes one to lay down his life. We've got to be loyal to that gospel, to our Master Yahshua.

David Yonah and I were talking about the sons of Seth, how their inner workings distracted them from the authority over their lives. The ones over them were begging, pleading, trying to teach them, "Don't go to the edge of the mountain!"

I'm so thankful for the gospel. Gal 3:19 – I would have never thought of that, but I'm being saved. The light is shed on those inner workings and I'm learning to confess my sins and come to the rescuer. Yahshua is the sent one and we received the messenger in order to receive Him.

King David had it in His heart to trust the authority of our God, fearing to come against the anointing (King Shaul) even though it was harsh. It's for those who are in the world, but hate it, don't know why, and ask, "How can I get out of this anyway?"

In Island Pond when I came to visit as an unbeliever, it was the heart of the godly ones that spoke to me. The song, "The earth is YHWH's, and everything in it" – I had heard thousands of songs before, but I loved this one. I want my children to love it too. If I start not loving it even a little, then at the end of the line I will be totally off. Our Master said the evil one has *nothing* in me. I heard this and said, "I need to be saved!"

I want to be found standing with my brothers as watchmen at the edge of the field.

Othniel – I heard a little critical mass. I remembered Disneyland in the 1960s. Everyone went in there, paid their money, and went in the Monsanto exhibit about the human body – the cells, the heart, speakers telling the encapsulated story of how things worked. It was something that drew me – that knowledge – something that I wanted. You are what you eat. I was all those things. I can't live on the face of this earth. We try to save seeds, and then the corn is starchy. I want super-sweet corn. The belly-god kicks in.

Asher – I am trying to figure out how all this connects to music. We can only do what's in our hearts. When I play music, I don't know what is coming out. Information is fine; correction is difficult. We don't want to be judged, and that fear is from the evil one. The priest didn't judge his own offering; his brother priest did.

Mevaser – A monster is a misshapen body – parts of all sizes. Christianity is a monster. If we compromise at all, get away from the true gospel, then we won't be that pure, simple bride. I want to be washed and delivered from all those distractions. I'm so thankful for the way He comes and cuts – circumcises our heart.

Melakah shel Amatz – Something we heard recently was that love finds a way. It was at a woman's meeting. The last time I heard that teaching was 15 years ago. I was newly married then and I didn't totally understand it. I thought when I heard it recently, what if our Abba hadn't spoken that? We wouldn't even be here. We wouldn't even be a community. I understand more now why our Father speaks to us about the four pillars: the breaking of bread, koinonia, head covering, and discipline on the first command. I see now we could never be together without those four things. Someday we will look back and say how thankful we are to have received this warning about the genetically modified gospel.

Sho'er – I want to see our Father's purpose come about. I want to cut off the things that destroy us. He wants the real thing, the genuine, authentic gospel of great value, and not the modified gospel (Jn 7:37; 6:35). The false

gospel leaves these people hungry, thirsty, and empty. The food of society gets altered. While they say they want to save the world, what they are doing creates health problems. Then you have to go to them for their synthetic medicines.

Yacob – in Rev 18:4, it says, “Come out of her, My people, do not receive up her plagues.” I heard all about this on a Christian radio station one time, but in reality it’s all going to come back on them.

Yochanan Abraham – You can eat that extra sweet corn and you don’t appreciate anymore the normal corn that once fed your parents. I’m affected by the music I used to like. We’ve all been affected by so much. The music ministers to us, and we won’t be bored because it will be pure and stir something up in us to praise Him in the way He always wanted.

Asuryah – This gene that alters has affected me because I don’t want to start off-key. There is something in me to be a performer. I really want to put that thing in me away

Kepha (Palenville) – What Nun and Neshef said touched me the most. It’s an offense to hear about someone tampering with something so fundamental as food. The goal is to make as much food as possible with as little work as possible. This flies in the face of the second covenant. This will spell doom to the world. It will rob men of their character and this is worse than feeding them food that isn’t food.

1 Ths 2:3-10 – No gospel can bring life unless it is pure. We can’t be man-pleasing or flattering, but gentle as a nursing mother. Those who minister the gospel not only impart it but give their life to those who receive them. I saw an apple in Labeshu’s hand; it was obviously not genetically engineered. I said it was a nice apple, and he gave it to me. That was a genuine act of kindness that touched me very deeply. That is the seed that needs to be preserved.

Qatan – It’s obvious how true it is that if a seed was not preserved the whole world would have become as Sodom and Gomorrah. Men were meant to be attached to the creation, crying out that the Creator would bless their efforts. They were dependent on Him. The genetically engineered seed lets you get the fruit without any effort or sweat, and then you become like Sodom. Our Father brought about a seed, a preserved seed. The world is growing increasingly independent of the Creator. We are going in the opposite direction.

David Yonah – I am thankful for how the meeting started. It set the tone. My generation was raised in that Monsanto capsule. It was offered as a better way of life, to be better than the way we were. I loved that capsule; I didn’t want to leave it to face the grim realities of life. When I met Yoneq, what he offered appealed to me because my trip on that capsule was taking on nightmare qualities. I could only be a seeker of pleasure because the God of Augustine cut me off from love. I couldn’t go to him because it was not life. So I became a seeker of pleasure. Why am I in this meeting? If anyone went to music as a seeker of pleasure it was I. Music was my God. I’m a man of great inner workings.

It is now time for that seed to die. All those inner workings have to die. Satan wanted me to build up his magnificent society. At the same time Yahshua is building His. The genetic altering was to give me a long shelf life, that is, self-preservation. We have to die so we can decompose. I want to stop the trip; I want to get out of the capsule – in every way, especially how I don’t love my children.

Acceleration – our Father hasn’t had an accelerated growth. He is so patient. I am so thankful. Yahshua patiently waited until it was time for Him to go to work. I know it is in us for the time of preparation to come to an end, and for *the work* to begin. Modification of the Word has got to be totally eliminated in us. I’m thankful for the suffering we go through. Our Father is good and wants us to take on His heart in every way.

I was going to speak and Qatan said exactly what was on my heart. If the seed hadn’t been preserved, we would all have become like Sodom. There has to be a pure, unadulterated seed to produce that nation so that a pure gospel could be preached, in order to bring the end of the age. The seed planted in Mary was a preserved seed.

Our Master was the second Adam, an immaculate seed, untainted by sin, in order that the word of God could be contained in a human being.

We have also become one with that pure seed, that one Spirit, that immaculate, untainted seed. We are becoming a spotless bride. That is whom our Master is going to marry and rule over the ever-increasing universe with.

Restored man will populate it, and we will rule. There will be no end to the increase of His government (Isa 9:5-6). Nations will experience healing from their wounds, suffering, and pain.

They didn't curse God and die, so they were preserved. We will wipe away their tears. We will take a handkerchief. We will serve the nations as the Body of the living God. Eye has not seen and ear has not heard what our Father has in store for those who love Him (1 Cor 2:9). We do not know now, but in a flash we will see.

There are 70 trillion cells in our human body. The DNA in 70 trillion cells will reproduce 70 trillion redeemed human beings and so on into eternity. Our Father has a reason for saving us. We are a seed preserved. Yahshua was the second and last Adam. He put that seed in the first Edah, but they were modified. Maybe the unreal gospel sounds more appetizing?

The seed in the early church mutated. It was altered, modified, and so experienced an accelerated growth. Our Master knew it would happen. That is why He said through Paul, that unless a seed was preserved the whole world would become like Sodom and Gomorrah. In this same way if the hearts didn't turn to the children, He would smite the land with a curse. Remember that there were two floods.

Dan 2:44 – This kingdom will not be left to another people. There is hope we won't be modified. Paul said in Acts 20:28-30 that if he left deceivers would come in, from both the outside and the inside. We have to be spiritually astute. We have to have the gift of discernment. We trust our lives to those who have this discernment, that they are not seeking glory for themselves. Paul said, "Take heed for the flock, pay close attention."

He was telling them to be watchmen. They were to guard themselves in order to guard the flock. Wolves with sheep's clothing – wolves that look just like a sheep would come in to devour the flock. Only the elect – those who are willing to do our Father's will, who are crying out to Him night and day – will not be deceived.

The more finesse he has, the more savage and the more deceptive he is. How are we going to tell the difference? The first church didn't! They were led astray, even from among the elders there were some that rose up. Some of you here will rise up. There are always Judases in every gathering.

Remember, the Catholic Church was deceived about Lk 1:35. It wasn't God that entered into her womb. She was not the mother who God. Yahshua was the second Adam, and the church will be born again by that preserved seed. We become one Spirit with Him, the second Adam, when we become one with the word. He had a mother and a foster-father. They were the two most righteous people on the earth. If anyone sits to the right and the left of our Master, they certainly deserve to. I am not competing for that.

*[There was a break in the meeting.]*

*Nahaliel – Mutate comes from a Latin root meaning to change. The word of God is immutable. Do we preach a gospel that will produce a different result? Mutation comes about through radiation, etc. Mutation can be bad and now it has been put into the hands of people who take it upon themselves to change the created order.*

When you are sent out, you are alone. That is when you do what is in your heart. If you have a certain flavor, it comes out. The true sent one doesn't seek his own glory. It is up to you. The foundation is what Yoneq said — total surrender. If we don't crucify the inner workings, the tendencies, they will go into your clan and then your tribe.

The mutated gospel can be in us. We want to love our Master with all of our heart. Yoneq saw he couldn't do anything without our Master. But if pride or cowardice enters in, you mutate the gospel. It is usually an added ingredient that you add to the gospel, or your own opinion, how you feel about something. If you are in a clan, maybe someone will check up on you. Our Father needs trustworthy men who are loyal and have the heart of our Master Yahshua. There will be no insecure sheep when there are no insecure leaders. We have to trust totally in our Master, and cut off spirits that speak constantly on the (left) side, and listen to his Spirit instead. We sing the song that is in our heart. The iniquity that is in us causes us to do this to make it look like that. (That is the deception.)

Nun – The genetic engineering is a masquerade. The insecurities in us cause us to move in a direction that will make us enemies of the cross. Christianity masquerades continuously because they never had the love of Yahshua poured out in their hearts.

To mutate is to genetically change, causing divergence from a race. Through the course of time it mutated from

its kind or racial type. By the third or fourth century you could no longer see the resemblance to the first church.

Our Father actually did not want all three races to become mixed. He wanted three separate races. Now they have diverged from three distinct races. He needs one culture now among His holy race of 1 Pet 2:9-10. *Genetic* means relating to the original restoration of all things. Without Scriptural support we would be imposters ourselves. Christianity says, "Look at how it's grown. What accelerated growth! How beautiful it is that one-third of the world's population is Christian."

We have to cut off the connection we have in our own personal lives to the unseen realms. Some people, no matter how long they have been in the Body, have never totally cut off those inner workings. But that is the gospel. Our flesh has certain connections to certain spirits like depression, loneliness – we must cry out in Yahshua's name to cut those things off totally and not listen to them anymore. Insecurity makes you lose hope and become depressed and look at all the worthless ways and failures of your life, etc. It all comes out when you are sent out. Then you will see them all.

Shelem – Insecurity has made my life ineffective in the Body. When I heard about the music meeting after 20 years I really started to cry out to be saved. I want His presence to be ushered to this earth on our praise. I've sought the comforts of this world because of that insecurity. All I need is Yahshua and I can put my insecurities aside. I can even put myself aside.

Chets Barur – The First Church got inoculated. They didn't take what they heard seriously. They didn't pay close attention in the minchah. The reason these companies genetically mutate the seed is so they will resist more and more pesticides. When you don't alter the seeds, it requires a lot more work and care. The only way that pure seed will make it is that it will receive the necessary care. It's impossible to ward off all these spirits and inner workings. We can only do it by receiving the Gardener's hands in our lives. I've been an absolute coward. I tried to feel out how someone is before I speak to that person and that's why no one has been saved. I'm thankful for what were hearing.

Yadutan – In the beginning our Abba had Adam, then love of self came in. He is our portion forever. The love of men will grow cold in the last days because they love lawlessness (Mt 24:12).

Jn 15:5 – I'm the vine, you are the branches. Then you draw from some other source, your old man, and you're drawn into it. The evil one wants us veer off the path. We've got to live for our Master. It is a simple matter – you don't search the Scriptures for eternal life, you come to Yahshua.

We need a vertical relationship with our Father and horizontal relationships with our brothers. We will be able to go to and receive our brothers. We can live for Him and love Him with all of our strength, heart, and soul.

When we seek comfort from other things, we go back to how we used to be.

Aharon – Eph 4:3 – Make every effort to preserve the one body with the one spirit. One body has one head, and every part of the body communicates to every other part, or else it is not a healthy body. If you're not really honest about what the Spirit spoke, then there is no unity of the Spirit.

Jeremiah (ben Soreph Gamaliel) – When I go out and pray, then I'm not insecure. When I take a thought for myself than I'm insecure. It is easier to live for yourself sometimes. It is starting to click that we are going to have to do it every day until the end – die to ourselves – and that it's not going to be easy. We are going to have to suffer.

Yerushah – We deny the power of the resurrection when we seek that comfort and we don't cut it off. They set a guard because they were afraid the next deception would be greater than the first. The evil one has been deceiving the human race ever since Eve gave in to those inner workings. We must put those things to death. When we are living a resurrected life, we will procreate that life. If we are giving in to those inner workings, the life can't increase. He came to die for us, so that His life can be in us. Hos 5:15 – "I will go away and return to My place until they seek My face." In our affliction we must cry out day and night or we are connected to another spirit.

Havah – We are really blind to our iniquities. A common enemy tells us, "I don't have any friends and no one understands me." But this disqualifies everyone who could help us and the only choice left is to trust ourselves. We have to trust Yahshua and our brothers and sisters. There are no wicked hearts in the Edah. We have to trust

both ways — giving out what we see and receiving what others give us. Intimidation and insecurity go hand in hand.

Ben-Nabi – Whatever situation you're in, our inner workings can affect us like the radiation that causes a mutation. It causes you to “diverge” from the path. Our Master was a sent one. He said He didn't come on His own initiative, but to do the Father's will.

The inner workings of Adam were fear and probably insecurity. He acted independently, out of fear. Insecurity plagues me and I know it plagues us. Our Abba needs faithful sent ones, which go to do His will when they are sent. I let His word fall to the ground. If I have salt, I will detect the impurities. I will be a “Shomer.” I don't want to diverge. My only hope is to be connected to Yahshua. My security is when I am connected to my brothers. I am secure when I take identity with them.

Nun – There's the inner workings of the evil one and the dynamic power of the Holy Spirit in our lives. We have to detect His workings and be connected to His Spirit. It's obvious whether it is the original seed – the fruit is obvious. We must be connected to the greatest force. We have the power to detect any other source.

The good news should bring us to the most secure place. It maligns our God for us to be insecure. But in reality our insecurity has to be worked out of us. King David was “A man after my own heart, who will do all My will.”

Even in my deepest iniquities, my love for the message and the messenger has never left me. I have the Holy Spirit. We can keep our first love; it grows from springtime love to springtime love. I want to be assertive to say, “We believe!”

We can believe and live by the Holy Spirit. What ever mutates you mutates the gospel. We are the most secure people on the face of the earth. We can become something else than what we were at the Vine House. The heart of David was there. It's got to remain the same. The workings of the evil one have to be done away with. We have to return to Him and let Him live! We need to uncover the power of the resurrection.

This meeting is like the judgment seat of Messiah. It is an awesome and fearful time. We may have gone off track a little but will get back on track! Life produces life. The gospel we received has produced the fruit. We have to protect the heart. The Holy Spirit grounds us; puts us on level ground. We have the connection with Him. We have to maintain it and abide. The last two years the tribe of Asher has doubled. All we did was abide. And, we are receiving persecution!

Hakam – I learned something today. The modification strategy of the evil one has been going on since the Garden of Eden. The evil one engineered the fall, and the first Adam went along with it. The seed of man was damaged beyond hope. Our Master Yahshua was a pure seed. He was the second man, the second Adam. He was the last man. He proved to be a preserved seed because divine life could come and live in Him.

We have been given that new seed in us as well. These things that work to manipulate the seed will always go on in us, but we have the ability (the seed) to always find life in us. Every time we go to Him and submit something that is going on, we are being restored back to what were created to be. The evil one mutates, modifies, and makes it into his image. I said, “NO!”

I started to see things that work in me and make me go to destruction. We live this life every day. We will never get there by analyzing the modifications. Yahshua's life is in us. It is a transcendent life. The evil one wants us insecure and even in despair, but we can transcend that. The door has been opened to see what is going on.

Eph 4:17 – Paul was telling them that they didn't come to know Messiah that way. They didn't come to know him by being insensitive and by being given over to sensuality, etc. He was telling them their seed was being modified.

We have to be made new in our minds – this is what the new man is. We have to take Yahshua on, His mind. He's going to have a corporate man who is like Him.

Sho'er – It makes me thankful. I want that heart of the nucleus – that pure, undeviated heart that they had since the beginning. I've grieved over how I was insecure. I related to people on a nice social level. I want the heart our Abba had in the beginning. I don't want fear to dominate my life anymore (1 Ths 2:1-2; Tim 2:1).

I wondered how the message would be passed on without modifying, how it would be pure, undefiled, and unchanged. Speaking the pure, undefiled, unmutated gospel can only happen if we are pure and undefiled,

confessing our sins.

Yachebed – DNA is to know who you are and where you are coming from. I am being very strengthened in my DNA today. We've received the same seed. I know our Abba is pleased with our children's faithfulness, and that strengthens all of us. We don't have the mutated gospel, but the one that's true.

Kepha – What a privilege to be here and get to know where I am from. Our Master knew where He was from (our Father) and knew where He was going. He could say with confidence, "I am the light of the world." He didn't care if they believed or not; He said what was on His heart. We can bear witness of Him if we abide in the vine.

Mithkah – Just to see Nun and Sekel would have made my day, but now I'm in this meeting and what I've received from the beginning is here. A thought came to me that I'm just the country girl in America. But I know where I've come from – I've come from the little flock. I remember Nun would sing and those spirits would flee away. We just sang; we didn't have a piano or anything.

Asher – I'm thankful. Today, when Nun and Nahaliel came, I had never met them before, but I had a feeling that Yahshua had come back. I mean, I've never seen Him. It doesn't matter what I've been through being here. It doesn't matter if I go through more of those things or not. It's just part of the transformation process. Our Master made a covenant with me to show me my enemies. I received hope today. I'm thankful to be in His hand. I want to be like Nun and Nahaliel.

I want to remind you a little of what we're doing as the Holy Spirit leads us. We're not true sons unless we're led and motivated by the Spirit. We have to be in one accord and not manipulated in any way. Luke 24 were Yahshua's departing words to the disciples, that an age would come, now, beginning at Jerusalem, and then in every nation, where the immutable gospel would be preached as a demonstration. He told them to stay in the city of Jerusalem until they were imbued with power from on high. "Stay there," He told them, "don't go anywhere until you are imbued with power before you do anything."

Acts 1 – The 120 stayed there for ten days. They all continued there, singing the same new song, speaking the same things. They had a meeting similar to this. The Holy Spirit has to come upon everyone. Music must be pure – all must be confessing their sins and imbued with the Holy Spirit. We singing the songs He's given us thus far. We are waiting for the day of Pentecost ourselves. It went down for ten days.

We have to have David's heart. The women, Miriam, Yahshua's imma, and the brothers – they were all in one accord. They were in unity and in harmony with the Spirit of their Master. It was a real, practical, down-to-earth communion. So you may as well confess it because we already know. If you try to sweep it under the rug it will smell.

On the Day of Pentecost they were all together singing that same song. The Holy Spirit came and entered into them and the 3,000 there were saved. They continued on daily with one accord – with gladness and sincerity of heart. Before the Holy Spirit could possibly come upon them they had ten days of confession. The day may come when we are imbued with more power than we have now.

They were in mutual agreement, of one mind and one purpose, singing a new song. They were one emotionally and every other way. You can shine people on, but you can't shine God on. He knows our inner workings. He knows our uncleanness. Without power we are helpless. It is not good enough to have the Holy Spirit in us; He has to be upon us.

Ps 33 – Praise from the upright is *yophi*. Praise YHWH with the harp. Don't expect we can be perfect until the Holy Spirit comes upon us. Our children have to be trained from the age of 4 years and up. Then they will learn to be skillful. There will be melody on ten-stringed instruments. They will play skillfully. We are going to train them to be skillful, not expect too much from them.
