

What Eye has not Seen

Spoken on Sharat's and Sh'maryah's wedding week celebration.

I imagine you can guess things which no eye has ever seen, nor ear ever heard, which have never entered into man's heart. It has to be something that no eye has ever seen, no ear ever heard, which has never even entered into a man's heart. But then it's revealed to us by the Spirit.

You understand why our Master has a bride and a wife. Do you ever wonder about it. We are His bride now and we will be His wife in the eternal age. It talks about husband and wife here. Why are there husbands and wives? What for? To have offspring. The increase from us, from each individual will never cease. He'll have offspring. We'll be multiplying but our offspring is not natural. Every cell in our body can be subdivided and make rulers of the universe.

There will be increase of the nations. They'll have natural offspring. People will be born, colonizing galaxies, going to the far reaches, the edges of the universe. The universe doesn't end. It goes as far as the east is from the west. There is no place outside of it. If you'd go for trillions and trillions and trillions and trillions of years.... you'd still wouldn't come to the end of the universe. It never stops. It goes on forever and ever.

The multiplication of the nations goes on forever and ever. It never stops. And also the increase of His government, His offspring will never cease. I don't know how many trillions there will be like you. They say that there are 70 trillion cells in a human body. There will be 70 trillions like you, like you, and like you (pointing at different people). And then all these 70 trillions will have offspring too, from every one of their cells. That's the increase of His government, His rule that never ends.

But that's also how long people will be separated from God too, like dogs that are unclean and have to stay outside.

With us and our Master the expression wife and bridegroom is being used. It wouldn't be like that unless there were offspring. He can do that and create offspring whenever needed. This is revealed by the Holy Spirit, so we'd know what's happening in eternity. There would be no need for us to be His wife and He our husband unless it be that way.

You have to rule over every cell of your body. Someday you'll be ruling over them. They'll be your offspring, your children. You're the stem. It has to be that way. All the planets will be filled up with human beings like Adam. We'll be human beings like Messiah. That's why you are married. You represent that.

Man is trying to do that now. If they can ever figure out how to get a spirit and a soul into a body, they'd succeed. But they can't do that.

It's a mystery still. There is no end to the increase of His rulers. That doesn't mean that He has two or three million people forever. There has to be an increase coming from a husband and wife relationship.
